Your dog will learn things from simple tricks and manners to agility and the latest dog sports.

## DROP-OFF

Care programs are designed for those times when you are too busy to participate. You drop your dog off and your dog has a human play and training buddy.

Dogs and coaches work together one-to-one. Your dog will get to play in the maze, practice recall, walking and even learn some tricks all in a stress free relaxing environment.

You get a relaxed dog that has practiced good doggie manners all day. This is a great program for those dogs that aren't social butterflies and often miss out on daytime fun.
